

# Apply E-Mentoring

Brightside's online mentoring connects you with inspirational role models, to help you make confident and informed decisions about your future.

As part of the **HE Apply** scheme you will be matched with an undergraduate mentor on Brightside's online messenger who can give you practical advice on preparing for university.

## How does it work?

- ✓ Create an account [here](#) to get started
- ✓ Complete a survey to tell us what you're interested in studying when you leave sixth form or college. This will help us match you to a mentor that meets your needs
- ✓ Attend a short 30 minute induction to develop an understanding of mentoring and its benefits. You will receive further information about this once you have signed up to the site
- ✓ We will match you with a current university or higher education student
- ✓ You will have weekly one-to-one DM chats to give you tailored and personalised advice and support about your applications

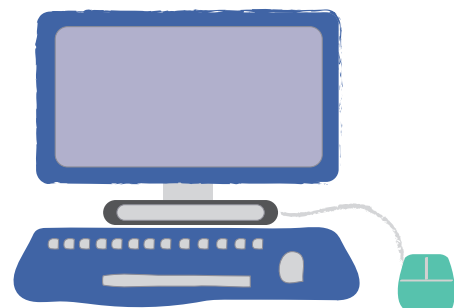

This programme is for Y13/Second-year Level 3 students

## What's in it for me?

- Receive dedicated support with putting together your personal statement or apprenticeship application
- Get personalised answers about student life, student finance and next steps after applications.
- Advice on dealing with offers and preparing for interviews

## The Platform

All one-to-one direct messaging takes place through Brightside's online mentoring messenger, meaning you can have access anytime, anywhere on your phone, tablet or computer.

“ Thank you so much! This experience really helped me with my application to university!

Brightside Mentee,  
Loreto College
