

Greater Manchester Higher Safeguarding/Child Protection Statement

Greater Manchester Higher and its partner institutions have a commitment to protecting all children and young people in its care.

As Greater Manchester Higher employs staff and student ambassadors from a number of different partner institutions, staff and student ambassadors are responsible for adhering to the policy of the institution that employs them. Links to these policies can be found below.

If a member of staff or student ambassador has any concerns around the welfare of a young person they are working with, this should be escalated according to their institution's policies, and communicated to the Head of Greater Manchester Higher.
